20800HEBC-M New Generation

Square Telescopic Columns

Chemical protected (stainless steel, No. 1.4571 (316Ti))

Manual height adjustment

for Union Special High Performance Bag Closing Machines

20800HEBC-M

For mounting an automatic sewing machine of style BC200.

Total range of height adjustment 750 - 1450 mm from lower edge of sewing column to needle, 350 mm infinitely variable range by a crank handle and 350 mm assembling range variable in seven steps of 50 mm each.

The sewing machine is actuated by a built-in feeler.

Designed for adapting a conveyor. The width of the conveyor should not be more than 600 mm.

Each column is equipped with a motor and a switch box containing a lockable main switch. The control circuit is protected by an isolating transformer.

Supplied with thread stand for two cones of sewing thread and if required for one cone of filler cord.

Feeding direction of bags only possible from right to left.
